

***pbi* TWIN**

STRONG MECHANICALLY AND THERMALLY

A strong fabric that is specifically designed for firefighting operations in China.

MECHANICAL PROTECTION

The double-sided construction incorporating 100% stretch-broken Para-Aramid yarn gives the fabric strength to endure tear and tensile stress.

THERMAL PROTECTION

High content of PBI fiber on the outside offers exceptional break-open protection while Para-Aramid grids on the inside generate air pockets that slow down heat transfer.

IMPROVED COLORFASTNESS

Designed to meet China's XF 10 standard, PBI Twin offers stable dark navy color after several washings and exposure to UV light.

WEIGHT

220g/m²

COLOR

navy blue
