A HAINSWORTH TECHNOLOGY PLUS PBI

# TITAN1260

A HAINSWORTH TECHNOLOGY PLUS PBI

## STATE OF THE ART PROTECTION

Titan 1260 is a highly breathable outer shell fabric that incorporates unique Intelligent Flame Retardant Fibre Positioning Technology to enhance thermal insulation.

### HIGH BREATHABILITY AND COMFORT

The use of insulating air pockets delivers high levels of breathability to tackle heat stress.

### STRONG AND DURABLE

Specially selected yarns used in Titan 1260 optimise strength without sacrificing comfort.

### OUTSTANDING PROTECTION

Unique blend of PBI fibers with para and meta aramid fibers delivers proven protection from heat and flame.

#### WEIGHT

220g/m<sup>2</sup>

#### COLOR

gold with black grid and plain gold
