

A close-up photograph of a light-colored, woven fabric with a grid-like pattern, likely the material being advertised. The texture is clearly visible, showing the interlacing of threads.

## PROTECTON WITHOUT COMPROMISE

Enhanced strength and  
abrasion resistance  
for the most difficult  
conditions.

### REINFORCED RESISTANCE TO WEAR AND TEAR

A Para-Aramid matrix of high strength denier filaments increases strength and abrasion resistance.

### SUPERIOR HEAT AND FLAME PROTECTION

The blend of PBI and aramid fibers ensures a high resistance to heat and flame.

### DESIGNED FOR THE TOUGHEST

Superior strength to withstand the most difficult environments.

#### WEIGHT

205g/m<sup>2</sup>
